MASSAGES

Cosmetology

RELAXING MASSAGE

Duration: 45 minutes.

This massage is designed to promote a deep sense of well-being and tranquility, relieving stress and encouraging physical and mental relaxation.

It consists of the application of gentle, rhythmic manual techniques on the body to release tension, improve circulation, and promote an overall sense of calm.

\$ 45 USD

TIRED LEGS MASSAGE

Duration: 40 minutes.

It is a therapeutic treatment designed to relieve tension and discomfort in the legs, especially after standing and walking for prolonged periods.

This type of massage not only offers immediate relief from fatigue, but also provides numerous benefits for overall health and well-being.

\$ 50 USD

RELAXING MASSAGE WITH HOT STONES

Duration: 45 minutes.

known for its relaxing effects and beneficial impact on both body and mind. It uses basalt stones, which optimally retain heat.

This technique allows for deeper penetration into the muscle tissues, facilitating the release of tension and the relief of muscle pain.

Facial Treatments

Cosmetology

DIAMOND SKIN

Duration: 60 minutes.

Microdermabrasion is a great ally in treating facial skin concerns, such as reducing wrinkles, fine expression lines, moderate acne issues, small scars, among others.

This procedure removes dead skin cells and, as an exfoliating treatment, is a great ally for eliminating skin impurities such as pimples and blackheads, also helping to reduce the appearance of pores.

\$ 75 USD

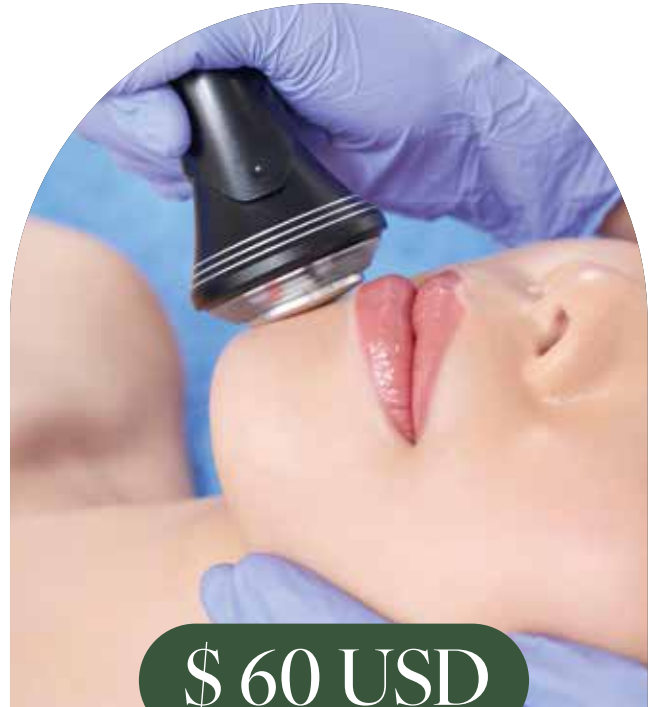

Facial Radiofrequency

Duration: 30 minutes.

It is a non-invasive treatment to rejuvenate facial skin, using a high-frequency electromagnetic current that, through specific applicators, penetrates from the most superficial layers of the skin to the deeper layers of the dermis and epidermis.

This electromagnetic current is transformed into heat that reaches the deeper layers of the skin without affecting the superficial ones.

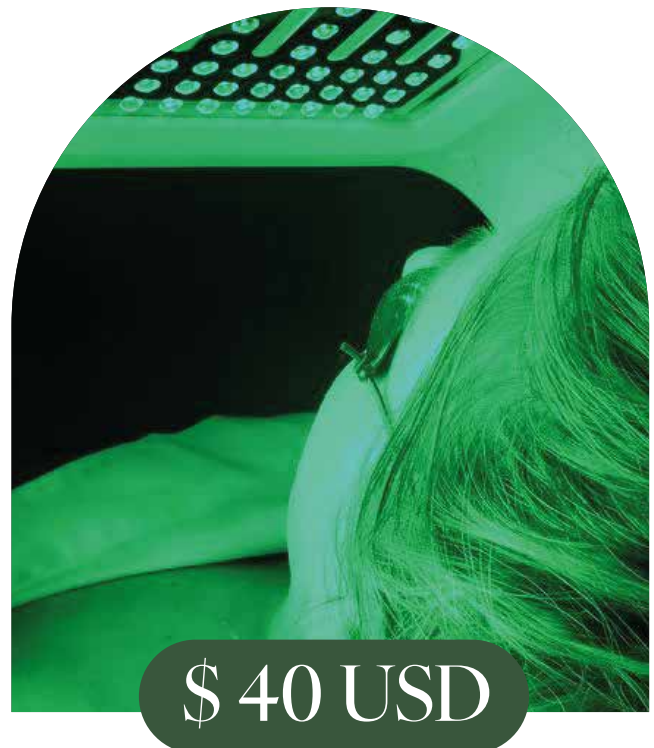

Lumifacial

Duration: 60 minutes.

This therapy is a painless and relaxing skincare treatment that plumps aging skin by stimulating collagen production and treats acne by eliminating bacteria.

LED light works by sending packets of light that deliver energy to the deeper layers of the skin.

Facial acneid

Duration: 120 minutes.

It is a treatment that helps control and regulate the amount of sebum in the pilosebaceous follicles, preventing the proliferation of acne-causing bacteria on the skin.

It restores the skin's balance and vitality and delays the appearance of new lesions.

\$ 65 USD

S'mores Hydrating Facial

Duration: 60 minutes.

Discover the power of renewed skin with our mask for oily or acne-prone skin, enriched with a gentle antiinflammatory enzyme that combines natural antioxidants and a sweet cocoa aroma to nourish and protect all skin types.

Formulated with a delicate exfoliation of natural papaya and pineapple enzymes, this mask effectively polishes and prepares the skin for a fresher, more even appearance.

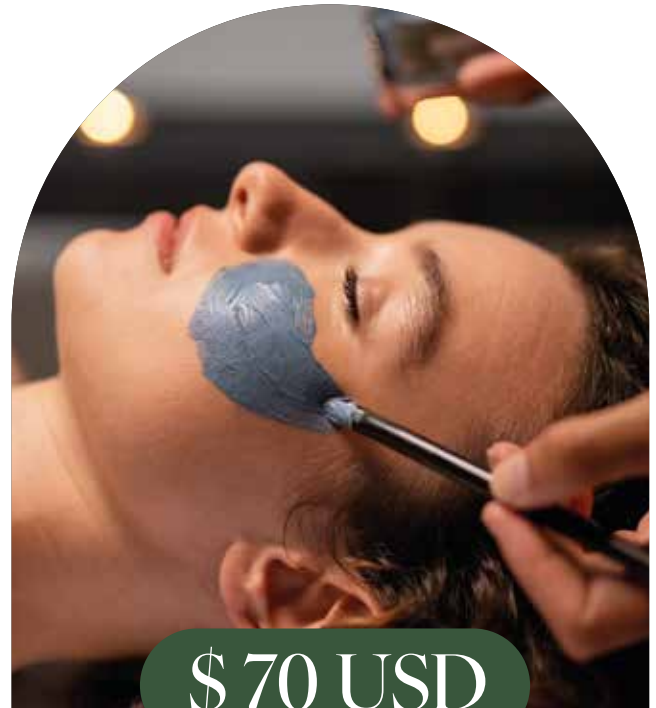

\$ 65 USD

Caviar, Lemon & Passion Fruit Facial

Duration: 60 minutes.

This mask is anti-aging and targets dark spots, gently exfoliating the skin, stimulating cellular renewal, and improving its texture and tone.

Enriched with anti-inflammatory enzymes and natural antioxidants, it nourishes and protects all skin types while also enhancing the absorption of skincare products.

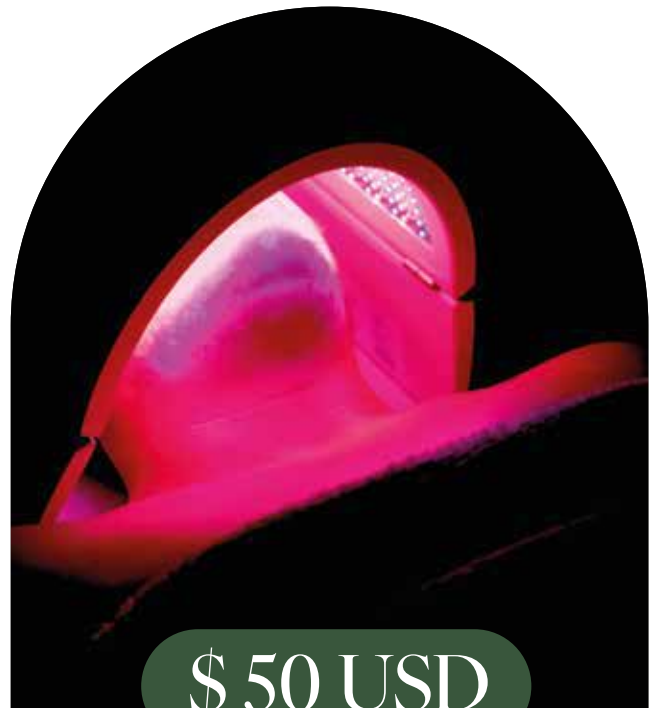

\$ 70 USD

LED Phototherapy with Microdermabrasion

Duration: 60 minutes.

The combination of LED phototherapy with microdermabrasion is an innovative aesthetic technique that is revolutionizing skincare by merging two highly effective approaches.

Microdermabrasion stimulates blood circulation and cellular regeneration, while LED phototherapy boosts metabolism and cellular growth.

\$ 50 USD

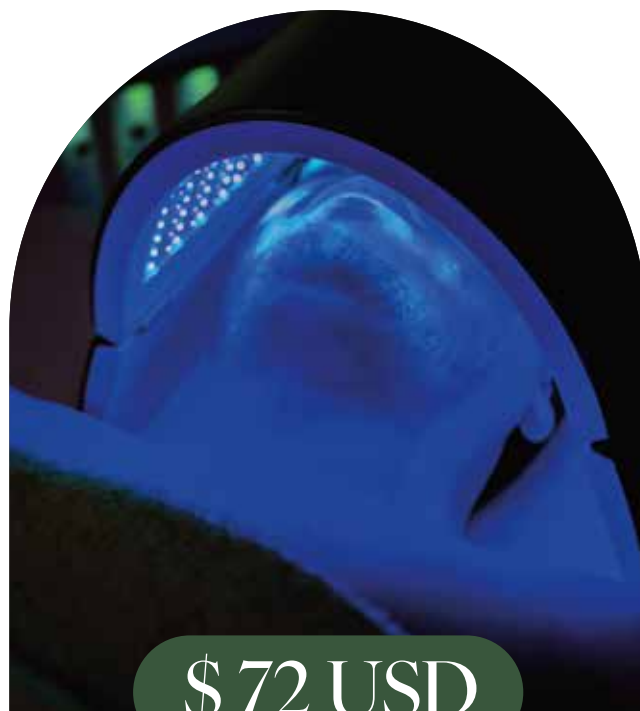

LED Phototherapy with Radiofrequency

(Lumilift)

Duration: 60 minutes.

The combination of facial radiofrequency and LED phototherapy represents a synergistic approach that maximizes the benefits of each technique.

Together, these technologies can deliver remarkable results in terms of rejuvenation, firming, and overall skin improvement.

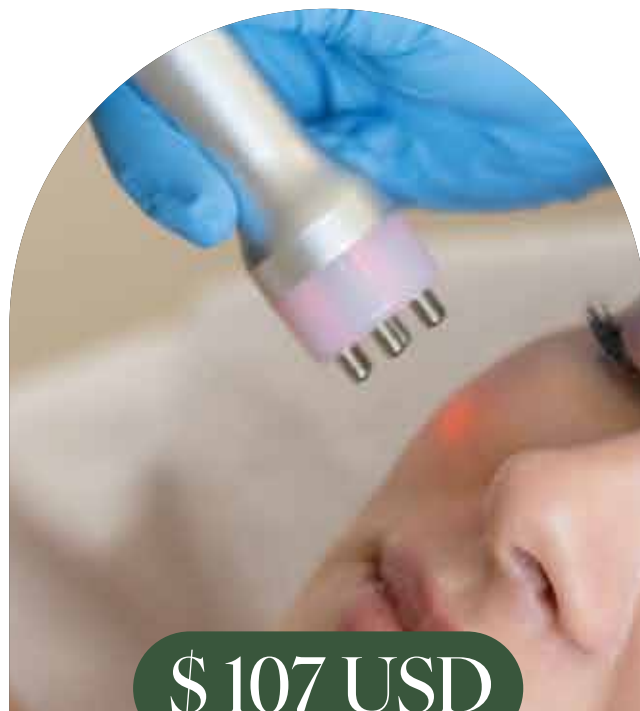

\$ 72 USD

Facial with (Lifting-effect facial) Radiofrequency

Duration: 60 minutes.

Facial radiofrequency is a treatment to rejuvenate the skin of the face. It is a non-invasive and painless technique that stimulates the production of collagen, elastin, and hyaluronic acid. Thanks to the application of a high frequency electromagnetic current, it is transformed into heat that reaches the deeper layers of the skin without affecting the superficial ones.

\$ 107 USD

Depigmentation Photo Treatment with IPL

Duration: 60 minutes.

The depigmentation photo treatment with IPL uses light pulses absorbed by melanin to lighten spots, even out skin tone, and improve texture. It is a non-invasive treatment that stimulates collagen, requires multiple sessions, and temporarily darkens spots before lightening them. Strict sun protection is recommended.

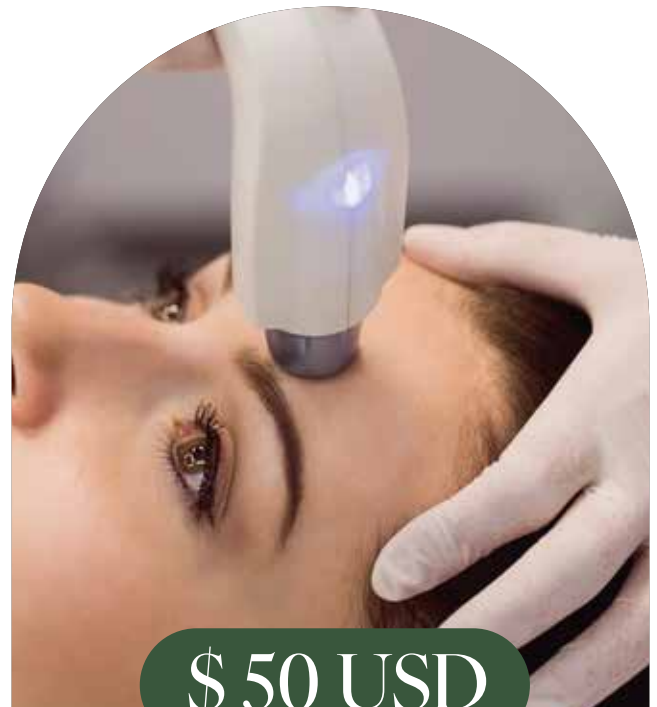

\$ 50 USD

1 session

IPL Photo-Rejuvenation

Duration: 60 minutes.

IPL photorejuvenation uses light pulses to improve sun-damaged skin, reduce spots, redness, and pores, and stimulate collagen. It evens skin tone, smooths fine lines, and improves texture. Multiple sessions are required, with minimal recovery time, and strict sun protection is essential to maintain results and prevent complications.

\$ 50 USD

1 session

HYDRATING FACIAL

Duration: 60 minutes.

A hydrating facial is a specialized skincare treatment designed to provide deep and long-lasting hydration. This type of treatment focuses on restoring the skin's moisture balance, which is vital for its health and appearance.

Hydration is an essential component for keeping the skin soft, flexible, and youthful-looking. A hydrating facial helps address various concerns related to dryness and dehydration.

\$ 45 USD

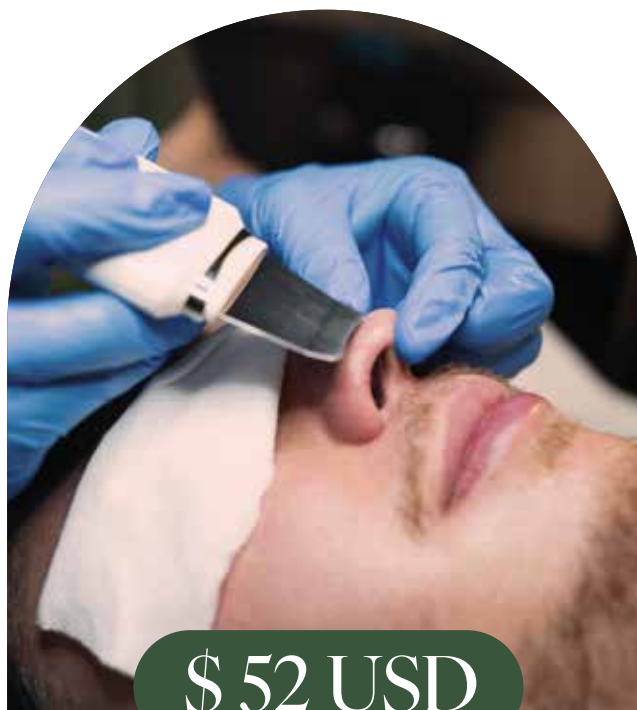

Deep cleansing

Duration: 60 minutes.

Deep facial cleansing is a specific technique performed to improve the health and appearance of the skin.

This type of treatment focuses on restoring the skin's moisture balance, which is vital for its health and appearance.

\$ 52 USD

Microdermabrasion

Duration: 30 minutes.

Microdermabrasion is a treatment that uses water and diamond tips to perform a deep cleansing of the skin, removing dead surface cells, oil, and accumulated blackheads. It reduces pore size, improves rough facial texture, and diminishes scars, resulting in smooth and even skin.

\$ 45 USD

IPL Anti-Acne Phototherapy

Duration: 45 - 60 minutes.

IPL Anti-Acne Phototherapy uses intense pulsed light to eliminate C. acnes bacteria, reduce inflammation, and regulate sebum production. It also helps unclog pores, improve skin texture, and even out skin tone. It is a non-invasive, safe treatment that is well tolerated by most skin types.

\$ 50 USD

1 session

Hydrafacial Signature

Duration: 45 - 60 minutes.

The HydraFacial Signature cleanses, exfoliates, extracts impurities, and deeply hydrates in a single session. It uses vortex technology to cleanse pores painlessly while infusing serums with antioxidants, peptides, and hyaluronic acid. It improves skin texture, radiance, and fine lines, delivering immediate results with no irritation and suitable for all skin types.

\$ 150 USD

Hydrafacial Platinum

Duration: 45 - 60 minutes.

The HydraFacial Platinum combines lymphatic drainage, deep cleansing, exfoliation, painless extraction, serum infusion, and LED light therapy. It improves circulation, cleanses pores, hydrates, nourishes, and stimulates collagen production. Skin looks brighter, smoother, and more even from the first session. The treatment is fully customizable to individual needs and requires no prolonged downtime.

Hydrafacial Delux

Duration: 45 - 60 minutes.

The HydraFacial Deluxe cleanses, exfoliates, extracts impurities, and deeply hydrates while combining personalized boosters and LED light therapy. It improves skin texture, pores, radiance, and signs of aging from the very first session. It is non-invasive, suitable for all skin types, and delivers immediate results with little to no downtime.

BODY TREATMENTS

Cosmetology

Back Facial

Duration: 60 minutes.

The back facial is a specialized treatment focused on improving the health and appearance of the skin on the back—an area that is often overlooked in personal skincare routines.

Although less visible than the face, the back can also experience skin concerns such as acne, breakouts, dryness, and discoloration.

\$ 60 USD

BODY RADIOFREQUENCY

Duration: Depends on the area being treated.
(Anti-cellulite)

Body radiofrequency uses high-frequency electromagnetic waves applied to the deeper layers of the skin. These waves generate controlled heat in the subcutaneous tissues, producing positive results in a non-invasive way.

Radiofrequency can help to:

- Reduce cellulite
- Combat skin laxity
- Minimize stretch marks
- Rejuvenate the skin

\$ 60 USD

AESTHETIC MEDICINE

Aesthetic Medicine

BOTULINUM TOXIN

Botox[®] 50U / Otesaly[®] 50U

Duration: 30 - 45 minutes.

The application of botulinum toxin prevents muscle contraction, helping relax dynamic wrinkles, also known as expression lines. Botulinum toxin also affects the sweat glands, reducing excessive sweating; this depends on the dose and depth of the injection.

Areas of application:

Face, neck, underarms, palms.

Aplicaciones de la toxina botulínica:

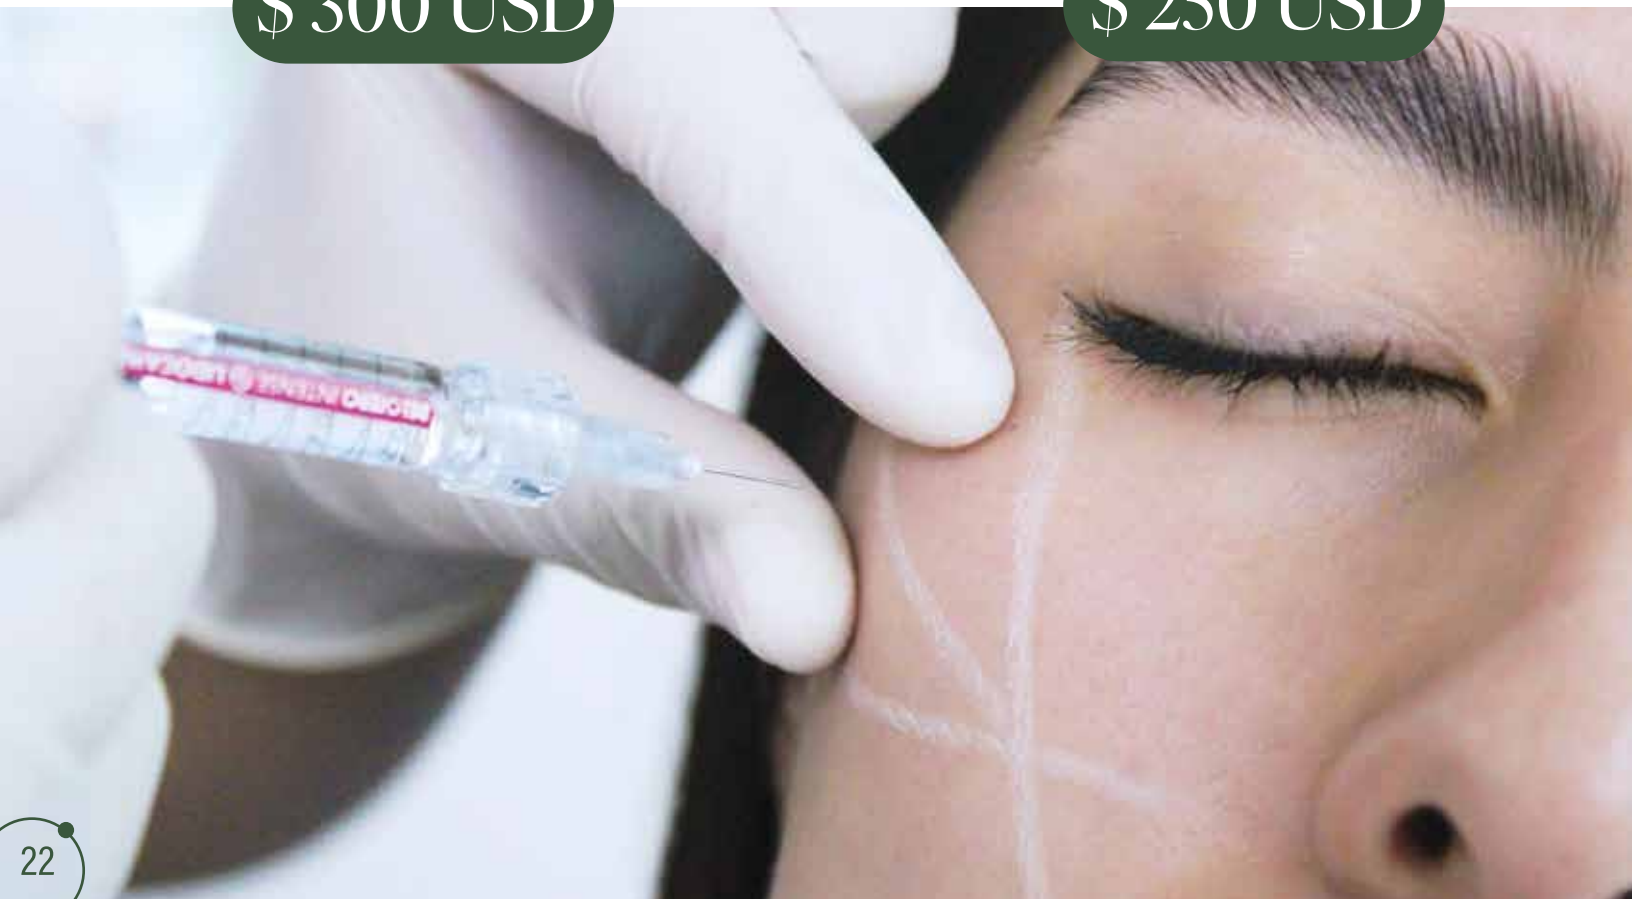

- Reduces expression lines
- Decreases and prevents dynamic (movement-related) expression lines
- Rejuvenates the neck
- Creates a “rested” facial appearance
- Reduces excessive sweating in the underarms and palms

Botox[®] 50U

\$ 300 USD

Otesaly[®] 50U

\$ 250 USD

DERMAL FILLERS

Restylane® / E.P.T.Q.®

Duration: 30 - 45 minutes.

\$ 335 USD

Dermal fillers are products injected into the skin, mucosa, or soft tissues, designed to restore lost volume, provide greater projection to specific areas, smooth wrinkles and fine lines, and improve the overall appearance of aging skin.

Areas of application:

- **Lips:** Used to increase lip volume and projection, as well as to enhance contour and definition when applied as a lip liner.
- **Non-surgical rhinoplasty.**
- **Cheeks and cheekbones:** Restores facial volume and enhances facial contour.
- **Jawline area:** Firming and definition of the jawline, with improved chin volume.
- **Under-eye area:** Rejuvenation of the eye area restores volume to under-eye hollows, helps prevent a sunken appearance, and corrects dark circles, resulting in a healthier, more refreshed look.

COLLAGEN BIOSTIMULATORS

Radiesse® / Aquashine®

Duration: 45 - 60 minutes.

Collagen biostimulators are substances that stimulate the skin's natural collagen production. Their purpose is to encourage the regeneration of collagen that gradually decreases with age, helping restore skin firmness and elasticity.

Advantages of collagen biostimulators

- It works in a progressive and natural way, improving the appearance of the skin without causing drastic changes.
- It improves firmness and elasticity lost over the years.
- They are effective in reducing wrinkles and expression lines.
- They can restore lost facial volume, improving facial symmetry.
- Their effects can last up to six months after application.

Areas of application:

Cheeks, cheekbones, nasolabial folds, marionette lines, jawline, neck, and hands.

Aquashine®

\$ 170 USD

Radiesse®

\$ 420 USD

DERMAL PEELING

Origin®

Duration: 45 - 60 minutes.

It is a treatment that exfoliates the superficial layers of the skin through the application of a chemical solution, aiming to renew the epidermis.

Areas of application:

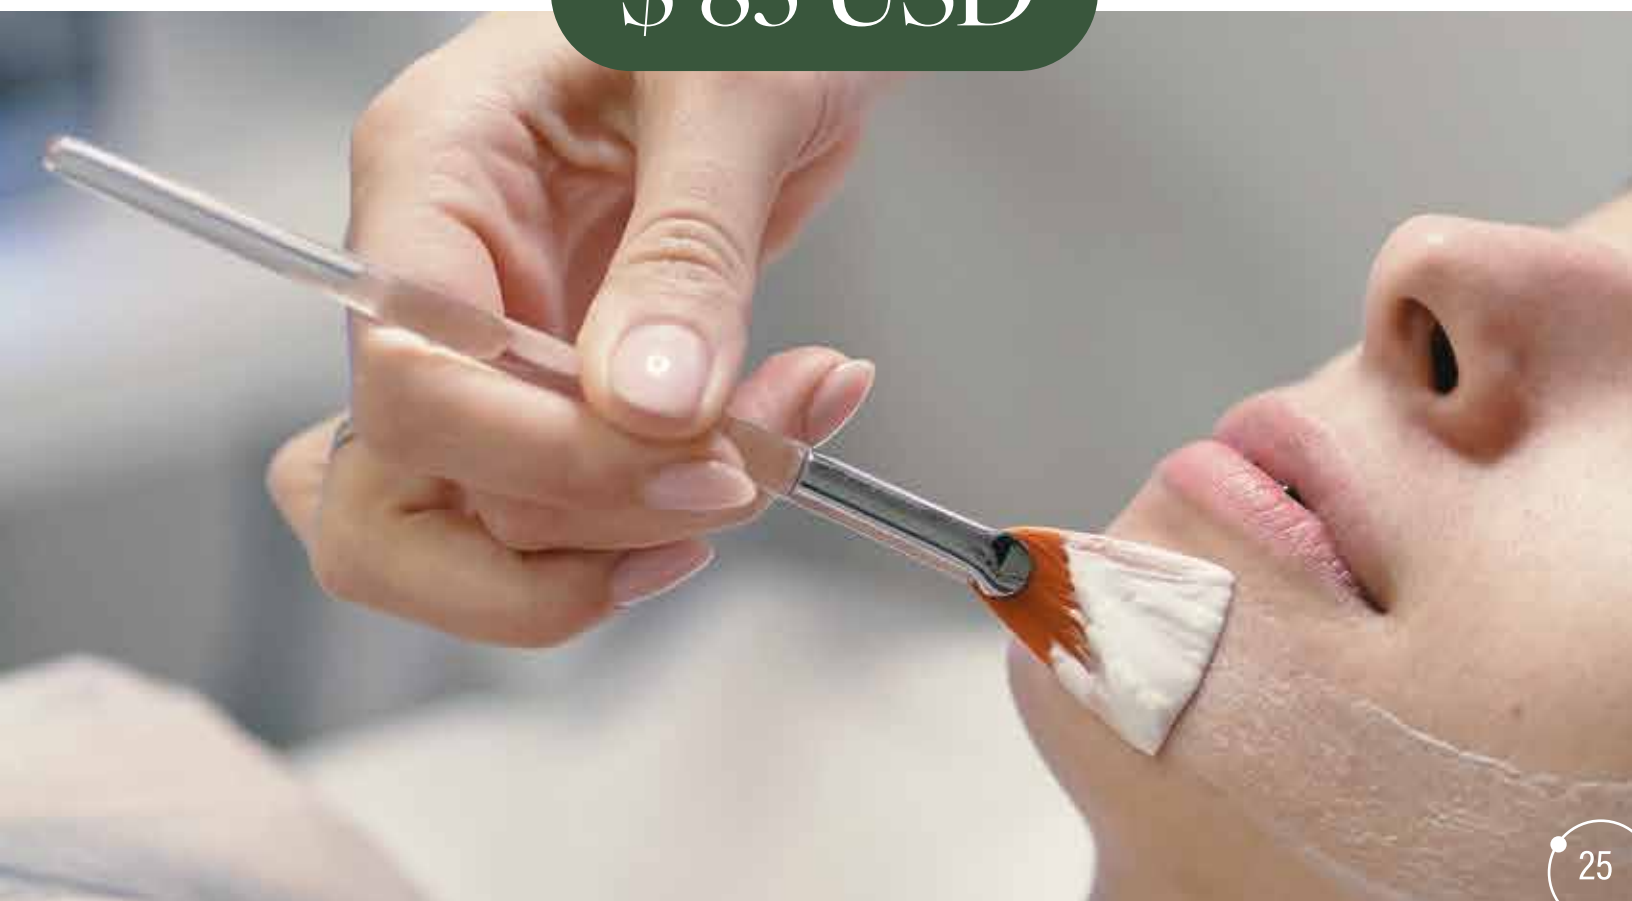

Chemical peels can be performed on the face, neck, décolleté, and/or hands.

Benefits:

- Reduces fine superficial wrinkles
- Removes sunspots or solar keratosis
- Minimizes the appearance of mild scars
- Treats certain types of acne
- Reduces age spots
- Improves skin appearance and radiance
- Addresses facial photoaging

1 Area

\$ 85 USD

EXOSOMES

AGF mesenquimales

Duration: 45 - 60 minutes.

Exosomes are growth factors secreted by mesenchymal stem cells, indicated for improving skin photoaging, rejuvenating aged skin, and reducing acne scars.

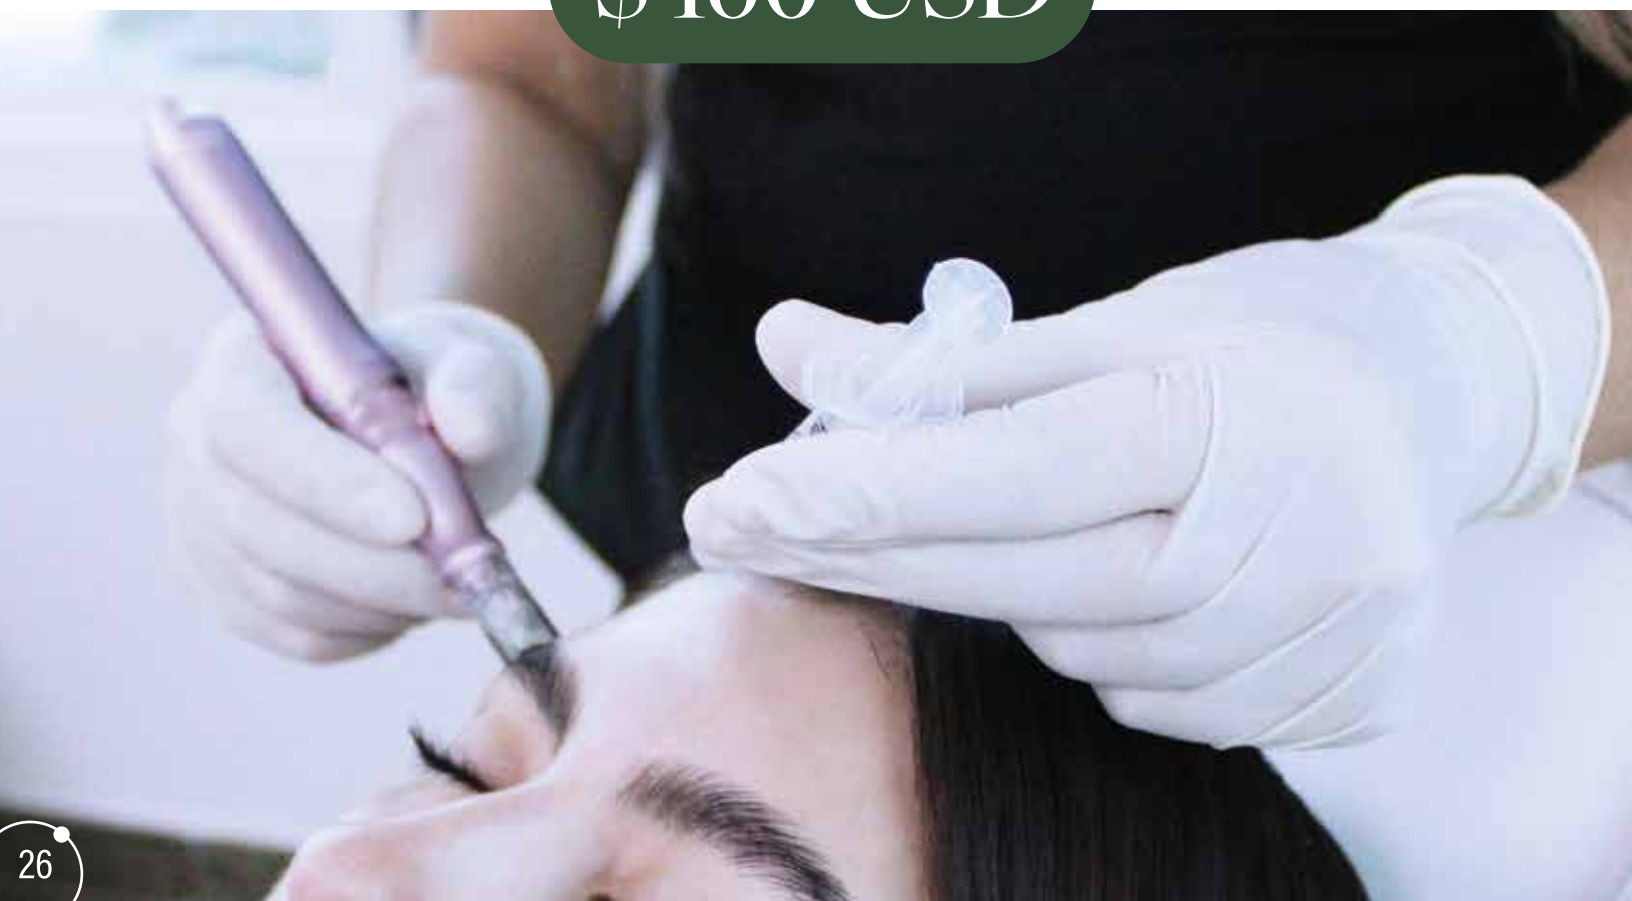

Areas of application:

Face, neck, décolleté, and hands.

Benefits:

- Biostimulation and cellular regeneration
- Anti-wrinkle effects
- Naturally increases collagen and elastin production
- Improves acne and acne scars
- Enhances skin affected by photoaging

\$ 160 USD

DERMAL THREADS

Honey derma[®] / Time machine[®]

Duration: 45 - 60 minutes.

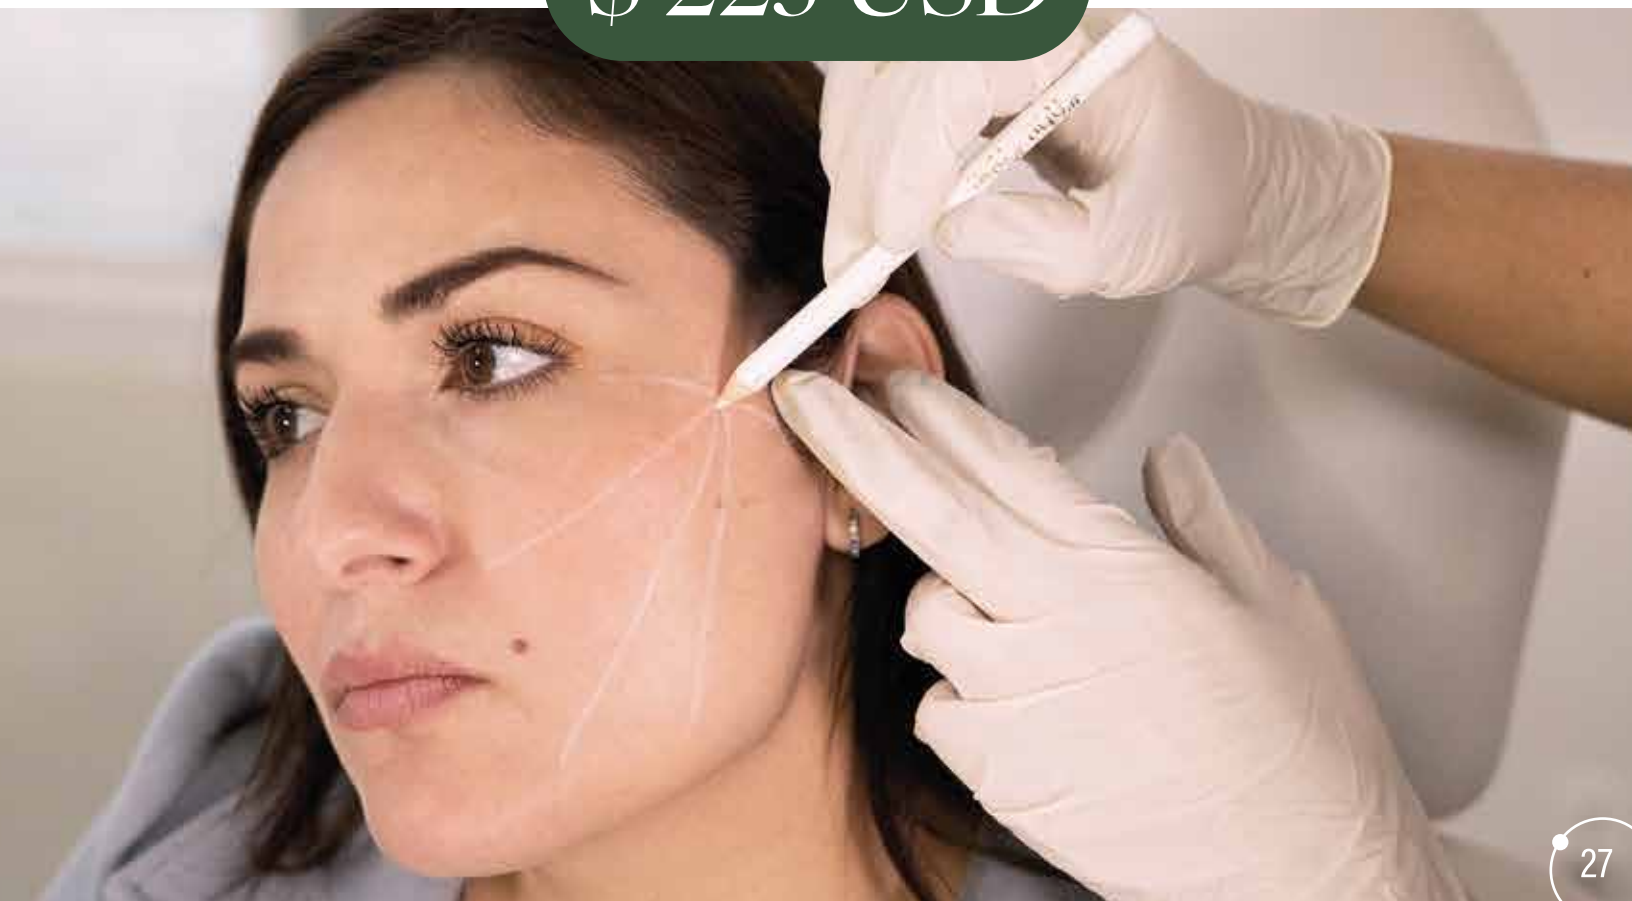

Dermal threads are medical filaments placed beneath the dermis to stimulate collagen production and lift the skin. The final results become visible between 1 to 2 months after the treatment, and the benefits can last between 12 to 18 months.

Beneficios:

- Biostimulation and cellular regeneration
- Anti-wrinkle effects
- Naturally increases collagen and elastin production
- Improves acne and acne scars
- Enhances skin affected by photoaging.

20 Smooth Threads

\$ 225 USD

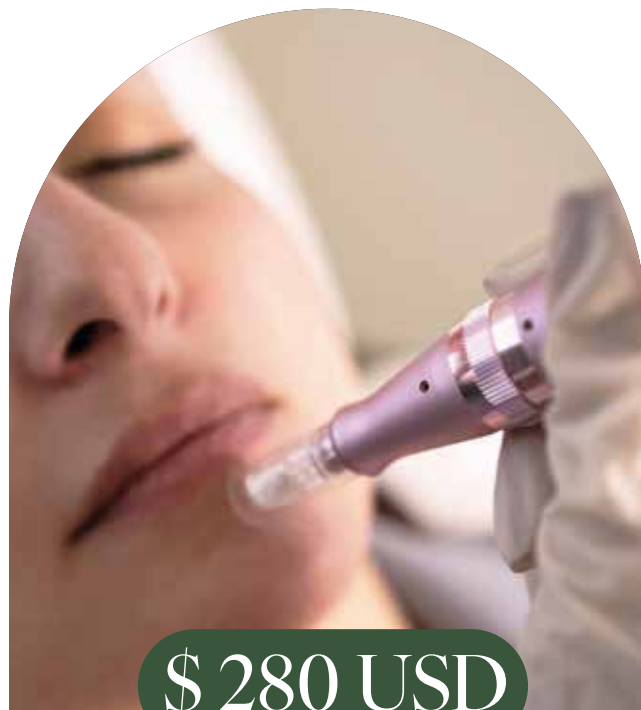

Facial Microneedling

Duration: 45 - 60 minutes.

Microneedling, or collagen induction therapy, stimulates skin regeneration through tiny punctures that activate the natural production of collagen and elastin, while enhancing the absorption of cosmetic active ingredients.

Microneedling rejuvenates the skin from within and improves expression lines, wrinkles, scars, acne marks, dark spots, enlarged pores, and skin laxity.

Lipolytic Enzymes

Duration: 20 - 40 minutes.

Lipolytic Enzymes are microinjections that break down localized fat, aiding its natural elimination. They reduce double chin, abdomen, arms, and thighs, improve body contour, and can help with mild cellulite. This minimally invasive procedure delivers gradual results, with mild side effects like temporary swelling or redness.

A close-up photograph of a hair treatment procedure. A clear, cylindrical applicator is shown injecting a substance into the scalp of a person with long, brown hair. The background is a soft, out-of-focus grey.

HAIR HEALTH

Aesthetic Medicine

HAIR EXOSOMES

Duration: 45 - 60 minutes.

They are a treatment that uses exosomes—small extracellular vesicles to stimulate hair regeneration and improve its quality.

\$ 165 USD

Benefits:

- Stimulates the growth of new hair follicles
- Strengthens existing follicles
- Increases hair density
- Improves hair quality and texture
- Reduces hair loss

SERUM THERAPY

Aesthetic Medicine

Immuno Plus Serum Therapy

Duration: 30 - 60 minutes.

A carefully designed serum with vitamins, minerals, and antioxidants administered intravenously. It allows for faster and more efficient absorption than oral intake, helping to strengthen your body from the inside out.

- It strengthens your natural defenses.
- It boosts your daily energy and vitality.
- Comprehensive support during periods of low immunity or physical demand.
- Helps reduce fatigue, stress, and signs of exhaustion.
- Improves skin texture, firmness, and hydration.

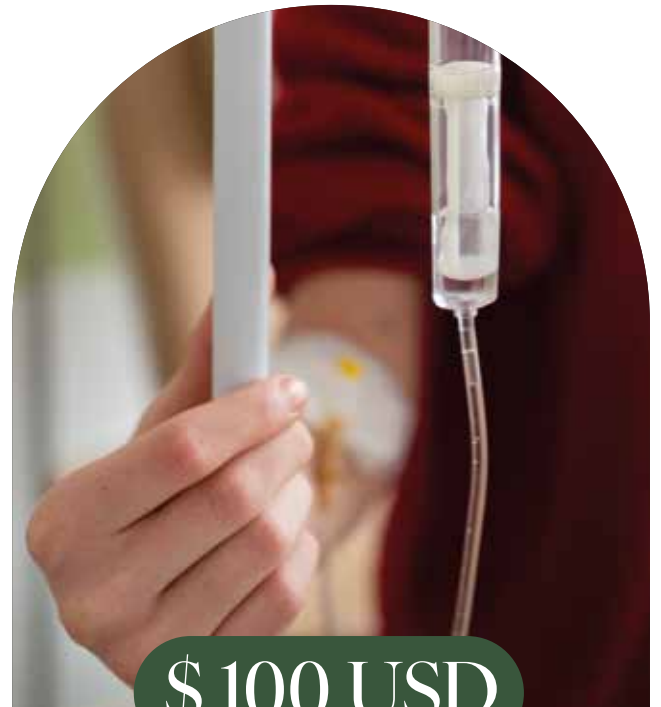

\$ 100 USD

Detox Serum Therapy

Duration: 30 - 60 minutes.

A medical infusion of vitamins, minerals, antioxidants, and fluids administered intravenously. It allows for direct absorption to support liver, kidney, and lymphatic function, aiming to revitalize your body from the inside out.

\$ 100 USD

After Party Serum Therapy

Duration: 30 - 60 minutes.

This intravenous treatment rehydrates and replenishes nutrients to restore energy after nights of excess or fatigue. It relieves symptoms such as headaches and nausea. Administered after medical evaluation and professional supervision, it offers quick results that enhance vitality and overall well-being.

\$ 100 USD

Anemia Serum Therapy

Duration: 30 - 60 minutes.

Intravenous iron therapy is primarily used to treat iron-deficiency anemia in patients experiencing symptoms like fatigue. It is effective when oral iron supplements are not sufficient. This treatment significantly improves iron levels and energy quickly and is tailored to individual needs.

\$ 115 USD

Menopause Serum Therapy

Duration: 30 - 60 minutes.

This treatment is designed for women in menopause or perimenopause experiencing symptoms like hot flashes and fatigue. It provides deep hydration, nutritional support, and relief from general discomfort through personalized intravenous serums, combined with a healthy lifestyle to improve hormonal and metabolic well-being.

\$ 115 USD

Anti-Age Serum Therapy

Duration: 30 -120 minutes.

This treatment is designed for individuals seeking to improve energy, vitality, and appearance, especially those experiencing fatigue or dull skin. It provides cellular hydration, nutritional support, and antioxidant protection to combat aging. The program includes a medical consultation, a personalized intravenous serum, and recommendations for healthy lifestyle habits to promote overall well-being.

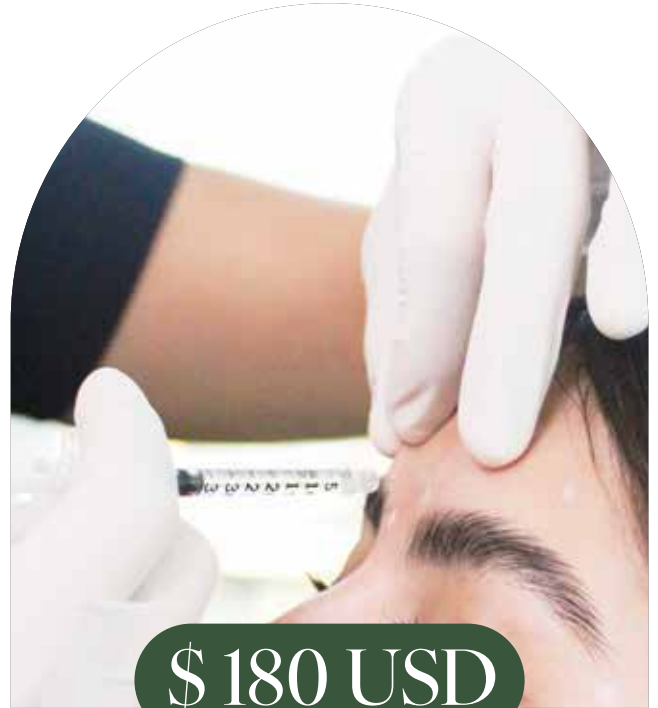

\$ 125 USD

Salmon DNA, Exosomes, and Stem Cells *V-Tech®*

Duration: 60 minutes.

This treatment is designed for adults showing signs of aging who want to improve skin texture, firmness, and radiance. It provides deep hydration, stimulates collagen production, and reduces fine lines. The treatment includes a medical consultation, application of V-Tech serum with polynucleotides and peptides, and a regenerating gel mask.

Salmon DNA *Rejuran®*

Duration: 30 minutes.

The Rejuran treatment improves skin with fine lines, visible pores, and early signs of aging. It increases firmness, elasticity, and radiance without adding artificial volume. The treatment is administered through microinjections of salmon-derived polynucleotides over several sessions, following a prior medical evaluation. It is ideal for damaged skin or post-laser care.

Salmon DNA with Hyaluronic Acid *Kiara Reju*®

Duration: 30 - 60 minutes.

Kiara Reju is an ideal treatment for skin with fine lines, dehydration, or damage, improving elasticity, firmness, and deep hydration. It reduces pores, scars, and mild pigmentation. The treatment works through microinjections of PDRN, hyaluronic acid, and niacinamide to regenerate and renew the skin.

\$ 200 USD

Mesenchymal Stem Cells: 5 million - 10 million

Duration: 30 -120minutes.

Improves skin texture, firmness, and radiance using mesenchymal stem cells, performed by specialized doctors to address signs of aging.

It stimulates collagen production and skin regeneration, making it ideal for early aging. The procedure is outpatient and recommended to be combined with
